---

## PROFESSIONAL SUMMARY

Versatile Mobile & Full Stack Developer with 8+ years of experience designing, building, and deploying scalable native and cross-platform applications. Strong command of .NET MAUI, React Native, Swift, Java, Angular, Node.js, and AWS. Known for bridging user experience with strong backend architecture, optimizing performance, and implementing clean, maintainable code. Proven ability to collaborate with cross-functional teams and deliver polished, high-performing products.

## CORE COMPETENCIES & SKILLS

- Mobile App Development (iOS, Android, React Native, .NET MAUI)
- API Development & Integration (REST, SOAP, Firebase, AWS Services)
- Web Development (Angular, JavaScript/TypeScript, PHP, HTML5, CSS3)
- Database Management (MySQL, SQL Server, Firebase, AWS S3/Cognito)
- Cloud Deployment & CI/CD (AWS, Git, Agile, DevOps)
- UI/UX Optimization & Responsive Interface Design

## KEY ACHIEVEMENTS & MILESTONES

- Improved mobile application speed and UI responsiveness by up to 30% across multiple deployments.
- Successfully integrated AWS cloud services to enable secure authentication, media handling, and real-time updates.
- Built dynamic dashboards and interactive user interfaces that reduced admin time and improved workflow efficiency.
- Delivered consistent, stable production releases with strong emphasis on testing, debugging, and optimized performance.

## PROFESSIONAL EXPERIENCE

### Mobile Application Developer | Neuronic Works Inc., Toronto, ON

Aug 2023 – Oct 2025

- Needed to develop and scale cross-platform mobile applications for multiple enterprise clients.
- Built applications with strong performance and consistent UI design.
- Engineered cross-platform mobile and web applications using .NET MAUI, React Native, HTML, CSS, and JavaScript; integrated AWS authentication and storage.
- Improved app performance and reliability, reducing load time and enhancing user experience.

## **Full Stack Developer | Condoplex Inc., Toronto, ON**

*Oct 2021 – Aug 2023*

- Developed multi-tier web applications with Java, Angular, Node.js, and Firebase.
- Implemented RESTful APIs enabling real-time, reliable data synchronization with Firebase.
- Enhanced usability and client interface responsiveness leading to 30% increase in user satisfaction.

## **Web & Software Developer | IXICA Communications Inc., Toronto, ON**

*Jan 2019 – Oct 2021*

- Designed and deployed web platforms using PHP, JavaScript, and modern UI/UX principles.
- Managed MySQL databases, optimizing queries to reduce load time and improve data security.
- Delivered responsive product interfaces across desktop and mobile.

## **Web & Mobile Developer (Intern) | Canadian Business Support Program, Toronto, ON**

*Sep 2018 – Dec 2018*

- Built drag-and-drop website builder for non-technical users.
- Created promo code and admin modules to enhance product functionality.

## **Android Developer | Siya InfoTech Pvt. Ltd., Ahmedabad, IN**

*Jan 2015 – May 2016*

- Developed native Android applications using Java and XML.
- Supported deployment and debugging cycles to ensure stable app releases.

## **KEY PROJECTS**

- **Cross-Platform Mobile App with AWS Integration**
  - Built real-time mobile app using .NET MAUI + React Native with AWS Cognito & S3 for authentication and object storage.
- **Enterprise Web Dashboard**
  - Designed Angular + Node.js admin dashboard improving analytics visibility and reporting efficiency.
- **E-Commerce Mobile App**
  - Developed Android marketplace app with browsing, ordering, and PayPal/Google API payment processing.

## **EDUCATION**

- **Post Graduate Diploma** – Mobile Application Design & Development
  - Lambton College, Toronto, ON (2017 – 2018)
- **Bachelor of Engineering** – Electronics & Communication
  - Gujarat Technological University, Gujarat, India (2010 – 2014)

## **ADDITIONAL INFORMATION**

- Languages: English, Hindi, Gujarati

- Eligibility: Permitted to work in Canada
- Relocation: Open to Calgary, Airdrie, and Edmonton

#### **KEY PERSONAL STRENGTHS**

- Highly developed and strong interpersonal skills, effective individualistic communication and coordination abilities within a dynamic and fast paced team environment
- Proven abilities in building and maintaining relationships with people in a proactive manner
- Successfully able to record, remember, and verbally communicate detailed information
- Robust and highly efficient problem solving, analytical and troubleshooting skills
- Meticulously organized and detail oriented, able to produce quality work under high pressure and time-sensitive scenarios or conditions
- Able to meet deadlines consistently through a proven track record of superb time management skills, cost-effective approaches to operational functions, and an overall robust style of work
